

# Equity Research Coverage

June 2018

Morningstar covers more than 200 companies in Australia and New Zealand as part of our global stock coverage of about 1,500 companies. We are one of the largest research teams globally with more than 100 analysts, associates, and strategists, including 17 in Australia. Local analysts regularly glean insights from our global sector teams in China, Europe, and the United States, enriching the process and enhancing outcomes for investors. Our research philosophy focuses on bottom-up analysis, developing differentiated and deep opinions on competitive forces, growth prospects, and valuations for every company we cover. We publish on each company under coverage at least quarterly, and as events demand, to ensure investment ideas are always relevant.

We are an independent research house, and therefore determine our coverage universe based on our assessment of a security's investment attractiveness, including a strong bias to companies with sustainable excess returns on capital or economic moats. We believe this approach well and truly puts investors first.

## We use the following guidelines to determine our Australian equity coverage:

- ▶ Nearly all companies in the S&P/ASX 100 Index.
- ▶ Companies in the S&P/ASX 200 Index which have an economic moat and/or have cash flow which is at least mildly predictable.
- ▶ In total, Morningstar will cover at least 80% of S&P/ASX 200 companies (which typically equates to about 95% of S&P/ASX 200 by market capitalisation). Companies we choose not to cover in this index are usually unattractive for most portfolios, in our opinion.
- ▶ About 30 ex-S&P/ASX 200 stocks are selected on Morningstar's judgement of each security's investment merit — which includes a very strong lean towards high-quality companies with sustainable competitive advantages, or economic moats.

## New Zealand coverage guidelines:

- ▶ The majority of the S&P/NZX 15 Index.
- ▶ Up to 10-15 ex-S&P/NZX 15 Index stocks selected on our judgement of each security's investment merit.

## Coverage Changes

Code	Company Name	Date	Reason
<b>Recently Initiated</b>			
NWL	Netwealth Group	18 April 2018	We initiate coverage on no-moat Netwealth, a provider of investment administration software as a service in Australia via its proprietary platform.
<b>Recently Ceased</b>			
TOX	Tox Free Solutions	3 May 2018	We cease coverage on no-moat Tox Free Solutions following the acquisition from Cleanaway Waste Management.
WFD	Westfield Corporation	23 April 2018	We cease coverage on narrow-moat Westfield Corporation following its merger with Unibail-Rodamco.
ISD	iSentia Group	19 April 2018	We cease coverage on no-moat iSentia Group based on several factors including the relatively small market capitalisation, which puts the company well outside the S&P/ASX 200 Index.
CAB	Cabcharge Australia	23 March 2018	We cease coverage on no-moat Cabcharge Australia based on the company's poor earnings outlook, weak competitive position, and the increasingly competitive Australian taxi market.
AWE	AWE	30 January 2018	We cease coverage on no-moat AWE following the takeover from Mitsui.
RKN	Reckon	2 January 2018	We cease coverage on no-moat Reckon as the company has struggled to compete with larger rivals such as MYOB and Xero.

**Current Coverage - S&P/ASX 200 (based on GICS sector groupings)**
