

Morningstar® Multi-Sector Market Indices

Key Benefits

- ▶ Enable more accurate and appropriate comparisons and contrasts between the funds in each multi-sector Morningstar Category
- ▶ These indices are available in Morningstar Direct™, and on Morningstar's proprietary fund profiles.

Multi-Sector Fund Performance Benchmarks

Morningstar calculates and publishes proxy market benchmarks for multi-sector funds. These Morningstar Multi-Sector Market Indices incorporate weighted averages of existing market indices.

These indices enable investors and their advisers to make accurate and appropriate comparisons between multi-sector funds and provide a meaningful performance benchmark for the five Morningstar multi-sector fund categories.

These five Multi-Sector Market Indices are:

- ▶ Morningstar Aus Msec Conservative TR AUD (XIUSA04GIY) (ticker 95244)
- ▶ Morningstar Aus Msec Moderate TR AUD (XIUSA04GIZ) (ticker 95245)
- ▶ Morningstar Aus Msec Balanced TR AUD (XIUSA04GJ0) (ticker 95246)
- ▶ Morningstar Aus Msec Growth TR AUD (XIUSA04GJ1) (ticker 95247)
- ▶ Morningstar Aus Msec Aggressive TR AUD (XIUSA04GJ2) (ticker 95248)

These indices are available in Morningstar Direct™, and on Morningstar's proprietary fund profiles.

How They're Calculated

We use identical calculations to determine daily returns for the five indices. We begin the calculation process by breaking each index into nine broad asset classes. We then assign a weighting to these asset classes on the basis of the category's average asset allocation, and then apply a widely-used market index to each broad asset class. Finally, we add these asset classes together to construct the daily return for each Multi-Sector Market Index. Each category's average asset allocation is updated twice-yearly (on 1 March and 1 September) and the market indices for each asset class are updated daily.
