Investments in securities are subject to market and other risks and there is no assurance or guarantee that the investment objectives of any of the portfolios offered by the Portfolio Manager (each, a "Portfolio") will be achieved. Portfolio performance may be affected by a wide variety of factors, including, without limitation, security-specific price shifts, changes in general market conditions and/or other micro and macro factors. A Portfolio's performance results at any particular time will also be impacted by its investment objectives and the investment strategy it uses to achieve those objectives, including without limitation, its then-current asset allocation position. As the price/value of the underlying assets of a Portfolio fluctuates, the value of the investor's investments in that Portfolio and any income derived from it may go up or down. Individual returns of an investor for a particular Portfolio may also vary because of factors such as timing of entry and exit, timing of additional flows and redemptions, individual investor mandate, specific Portfolio construction characteristics and/or structural parameters. Please refer to the Disclosure Document and Portfolio Management Services Agreement for certain Portfolio-specific, risk factors. Note that the composition of a Portfolio, as well as the index used to benchmark it, are each subject to change from time to time, as may be more fully described in its Disclosure Document.

Past performance of a Portfolio does not indicate its future performance. The Portfolio Manager does not guarantee that any Portfolio will generate positive returns or that it will meet the needs/investment objectives of any particular person. The names of the Portfolios do not in any manner indicate their prospects or likelihood of returns. Before making an investment decision, please (i) carefully review the Disclosure Document, Portfolio Management Services Agreement, and other related documents, including issue documents pertaining to the underlying investments of the relevant Portfolio(s), and (ii) consult your legal, tax and financial advisors to determine possible legal, tax and financial or any other consequences of investing in any of the Portfolios.
